A Valuable Agent.

The giverine suppleyed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohed with a country and properties of its own, being a valuable desnuteon, nutritive, antiseptic and antisement. It adds greatly to the efficacy of the Black Cherrybark, Golden Sedicon, Stone root and Queen's root, consulted in "Golden Medical Discovery" in subuling chronic, or linguring coughs, tronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities. In all casses where there is a wasting waxy of fieth, loss of appoints, with weak stomach, as in the early stages of consumption, there can be no doubt that giverine acts as a valuable nutritive and after the Golden Seal root, Stone root, Queen's root and Black Cherrybark in roomoting digestion and building up the Besh and strongth, controlling the cough and tringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure communption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarsenoss. In acute coughs it is not so effective. It is in the linguring coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most maryelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce Solden Medical Discovery and learn why this medicine has such a wide range, of application in the cure of diseases. It is sent free. Address Dr. R. V. Pierce, Buffalo, N. Y. The Discovery contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering free diseases of long standing, are invited to consult Dr. Pierce's Medical Adviser is sent free or recipit of stamps to pay expense of mailing

President Roosevelt Explains His Objection to the Proposed Meat Inspection Bill.

SAYS IT IS VERY, VERY BAD,

wit They Had Deliberately Designe to Prevent Remedying Evils Complained of They Could Not Have Done Worse."

Washington, June 16.—Chairman Wadsworth, of the house committee on agriculture, Friday night made public the correspondence between Presi-dent Roosevelt and himself regarding the meat inspection bill prepared by the committee

The president in his letter says that The president in his letter says that almost every change in the house amendment was for the worse, and in his judgment "so framed as to minimize the chance of rooting out the yells in the packing business." In his reply Mr. Wadsworth declares the resident is "seen years" in his president is "very, very wrong" in his astimate of the committee's bill, and concludes with an expression of reified in impugning the competency of committee of the house of represent "You have no warrant for it, said Mr. Wadsworth, in closing.

The president's letter follows: "My dear Mr. Wadsworth:— I have aly dear Mr. Wadsworth:— I have gone over your bill very carefully and not only obtained a report from Mr. McCabe, as I told you I would, but also obtained a report from Mr. Reynolds on it. I am sorry to say the more closely I investigate your proposed substitute, the worse I find it. Almost every change is one for the worse; so that it hardly seems necessary for me to enumerate them. Perhaps the amendment as you have now drafted it is not quite as bad as it was when you submitted it to me in the first instance; but it is very, very bad. There seems to be one point in which it is possible that the amendment is even worse that the original amendment, if, as seems likely, there is no provision for making plants accessible at all hours to the inspectors. In any event, I am sorry to have to say that this strikes as an amendment which, no matter how unintentionally, is framed so as to minimize the chance of rooting out the evil in the packing

business. Doubtless it suits the pack-ers, who object to a thoroughgoing inspection, much better than the senate ent, and I have no doubt that not only the packers, but their allie not only the packers, but their allies in business and those stock growers who are influenced by them, would pre-fer it. But I am convinced it would in the long rus, be a heavy blow to the honest stock rulesr and the honest packer to adopt these provisions rather than the far better ones contained in the senate amendment; for, as com-pared with the senate amendment this proposed amendment which you tell me is that of the majority of the house me is that of the majority of the house committee, would hamper in the most grossly improper fashion the secre-tary of agriculture, in doing the work which you have appointed him to do, and will prevent even so much of this work as can be done at all from be-ling well and thoroughly done. If the bill should go through in the form that the majority of your committee proit as working a certain slight improve-ment over the present law, but, if so, I should accompany it by a memoran-dum explicitly stating how grave the defects were, and I can not even prom-ine to sign it, because the provisions (about the courts, as well as about

(about the courts, as well as about other matters,) are so bad that, in my opinion, if they had been deliberately designed to prevent the remedying of the evils complained of they could not have been "It seems to me that the surest way to keep our foreign trade from us and, indeed, our interstate trade likewise, in a thoroughly unsatisfactory condition, and to prevent its resumina the position which it formerly had, is act the law in the shape propose in the amendments submitted to me

by you. "Sincerely yours, "THEODORE ROOSEVELT."
"Hon, James W. Wadsworth, chairman committee on agriculture, house of representatives."

Secured Pomo Indian Remains.

Barkeley, Cal., June 16.—The expedition recently sent from the department of Anthropology of the University of California to Medicino county for the purpose of obtaining the remains of Pomo Indians formarly inhabiting that section, has returned with five complete skeletons, besides a number of partial remains and a large quantity of beads and other objects which were buried with the dead. These are the first skulls and skeletons of the Pomo Indians in any museum in the world and will be of great importance in determining the racial qualities of the tribe and its physical relationship with the other Indians of the state. Secured Pomo Indian Remains.

Many more citizen of Abilene people with testimony of strangers living no far away you cannot investigate the Facts of the case. Many news citizen of Abilene will emforce our ciaim.

Mrs. B. C. Hisir of Hi E. North sith St. Abilene, Raa., says: "Donn'e Ridney Fills proved a most remarkable kidney remedy in my case. Not only doll suffer from severe pains in my back, jesticularly annoying as highs, but the secretions from the kidneys were very irregular and distressing. For several years, off and on, it had been my lot in metars the Minery connected with those symptoms. If I would sit for any length of time, I would be hardly able to rise on account of the palm mind limeness in the season of my back. Heading also devertisement about Dann's Elihony Fills, I was given a desirn to try this receipty and precured a hour at a drug store. The miner constitute to the binding and restored the infimumation of the binding and restored the miner constitute in the binding and combined that will give each gratifying search."

Foster-Millern Co. Steffalo, M. Y.

By a Vote of 110 to 36 It Expresse Its Preference for That Type of Waterway,

MR. BURTON AS INSTRUCTOR

A Sea Level Canal to Accommodal Modern Shipping Would Require Twenty Years or More in Bullding.

Washington, June 16.-If congress should send a measure to Presiden Roosevelt providing for the construc-tion of a sea level canal on 'the isth mus of Panama, he would veto it. This statement is made by authority,

The introduction by Representative Littauer Friday of the amendment to the item in the sundry civil bill appropriating \$25,000,000 to continue the construction of the Panama canal, pro-viding that no part of that sum shall be used in the construction of a ser level canal, was done with the approv

al of the president.
The house Friday by a vote of 110 to 55 voted in favor of a lock canal across the isthmus of Panams, as provided for in the amendment prese by Representative Littauer of New

With members of congress sitting on the short steps in the aisles of the house, around the space in groups, the galleries filled and with Mr. Burton of Ohio, pointer in hand, discu charts, the difference between sea level and lock canal presented every appearance of a class room,

Mr. Burton took position in front of the maps and called attention to the vital differences between the two types, vital differences between the two types, remarking that were the topography understood, it would be the very strongest argument for the lock level canal. He said if the banks would not cave, if large boats could go through without running against rocks at the side and could be properly steered, then a sea level canal would he the suterprise which would be naturally preferred. "But such a canal convenient for modern shipping and prospective shipping would in the judgment of those who have carefully studied the subject, exhaust 20 years or more in building."

Mr. Bartlett of Georgia, made a point against the amendment of Mr. Littauer. He insisted that the amendment was clearly new legislation and argued the question from that premise.

The chair, Mr. Watson of Indiana held the amendment in order and with-out further discussion the Littauer amendment was adopted.

To Survey Philippine Railroad. Manila, June 16.—Preliminary work on the Philippine island railroads will begin at once. Forty engineers and physicians who arrived at Manila on June 9 and 10 left Friday for Hotlo begin operations. The line on the island of Panay will be surveyed first, isiand of Panay some changes in the original survey be-ing necessary. The actual work of construction will probably commence

Senator Benson Gets Chairmanship. Washington, June 16.—The senate provided Friday a chairmanship for Senator Benson, of Kansas, by recreating the committee on the examination and disposition of documents. Senator Benson was introduced to President Roosevelt Friday by his colleague Senator Long. The president greeted Senator Benson cordially and had a pleasant that with him.

Passed Over Mayor Weaver's Vets
Philadelphia, June 16.—There was register of the treasury, has taken the Friday over an appropriation of \$5.000 for the entertainment of visitors to the golden jubilee of the republicant party here next week. The mayor's veto was sent in but both branches passed the appropriation over it.

EDITORS GATES.

SOV. FOLK FLAYS JEROME. Abilene Steam Lanndry.

Says Statements Made by the New York Man Are False.

Rover Gave Him an Opinion Upon of the Con-Any Subject-Benefits of the

Jefferson City, June 14.—District Attorney Jerome of New York, in an interview charged that fine helpsourist boodle prosecutions brought the law into disrepute and did no good, and that the blame for cases being reversed fell on Governor Folk's successor in the office of circuit attorney of St. Louis. Replying to this charge Governor Folk said Wednesday:

"Mr. Jerome is apparently in trouble about something, else he would not be so desperate in the effort to excuss himself.

"A few weeks ago he was quoted as

"A few weeks ago he was saying that I had given him an opinion that the insurance plunderers had not violated any criminal statute, when I had given him no opinion at all and had no communication, whatever, with

him on the subject. "The benefits of a crusade against bribery can not be measured by the number of men in stripes. The awakening of the public conscience to the ening of the public conscience to the necessity of stamping out the offense that strikes at the heart of free government was the main thing accom-

pitched. "Lawyers can always be employed, astute enough, who are paid enough to exercise their wits enough to raise points enough on which to hang a repoints enough on which to hang a re-versal. It is easier, under the lame and halting criminal proceedure in American states, for a camel to go through of a needle than to put a rich man in the penitentiary for crimes against the public. But that is no reason why the effort should not be made if he is guilty."

Asking Railroads for Facts. Philadelphia, June 14.—It was learned Wednesday night that in addition to inviting the presidents of eastern soft coal roads to appear before the com-mission, positive steps have been taken by the interstate commerce commis-sion to extend the scope of the coal and oil investigation. In this connection STATE OF RANSAS, [sec circular letters calling for important information and requiring that this laar, Benjamin Weishaar, Peter Weishaar, Benjamin Weishaar information and requiring that this shall be furnished by July 15 have been sent to the \$48 railroad companies which oprate the 213,940 miles of line

trops has won an overwhelming vie-tory and stating the report that they have met any reverses is not true. Minister Munoz stated that he has every evidence that the Guatemalan cabinet has not realigned.

Karean Rebellion Extending.

London, June 14.—The Daily Tele-graph's correspondent at Tokio sends the following: "The Korean rebellion graph's correspondent at Tokio sends the following: "The Korean rebellion is extending. The insurgesits have looted Tamyang and Sunchang and are threatening other towns. Japanese warships at Yokohama have been ordered to assist the protected crainer Chiyoda, the torpedo vessel Patsuts and the torpedo footills to suppress piracy on the southeast coast of Korea."
